OVERVIEW

Jeff Featherstun has focused on insurance coverage and environmental law for over 30 years. He has worked on a series of cases that helped make Indiana probably the most favorable jurisdiction for policyholders facing environmental liabilities. This work played an important role in enabling hundreds of millions of dollars in environmental cleanups across the country. Jeff’s environmental law practice has included litigating a number of issues of first impression, clarifying federal and state environmental laws. Through these matters, Jeff has had the opportunity to work with some of the world’s largest companies, as well as many small businesses, municipalities and individuals.
